PROTECTIVE CASE IDEAL FOR

Storing precision instruments, cameras, electronic products or anything that needs superior protection from the elements.

Item No:X-483621	
Outer size	514X422X221
Inner size	475X360X165
Product material	(PP) modified synthetic material
Waterproof level	IP67
Operating range	-40°C To +80°C

DIY TEARABLE SPONGE

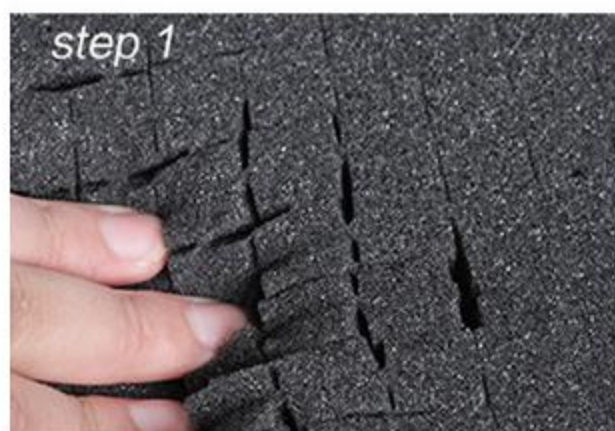

Soft, shockproof and protective

The upper cover is made of wavy sponge

Sponge liner

The lower box grid is a tear-off sponge

step 1

Pre-cut grid tear-off sponge

step 2

Compare the sizes of the placed items

step 3

Tear off the sponge carefully

step 4

DIY placement of items

WE ARE UNIQUE

MAKE SURE TO COMPARE CLEARLY BEFORE PLACING AN ORDER

OURS

PK

OTHER

01

ONE-PIECE MOLDING

Y-D case is made of high quality engineering ABS material. Pressure-resistant and drop-proof

SINGLE-POINT FIXATION

Made with substandard materials, offers no protection against pressure or drops, no protective function

02

SOLID HANDLE

It has a comfortable grip and is effortless to hold for a long time

HOLLOW GRIP

The grip feels uncomfortable and the hand aches for a long time

SEALED ON ALL SIDES

The box body is sturdy and has good waterproof performance

THE GAP IS LARGE

Poor sealing effect makes it easy for water to enter

ELASTIC SNAP

After tens of thousands of closing tests, it opens and closes easily

ORDINARY BUCKLE

It is laborious and prone to loosening and falling off after long-term use

EPDM SEALING STRIP

Dustproof, Waterproof,
Moisture-proof, Good airtightness

「IP67」

SPONGE SHOCKPROOF

Effectively protect the safety of equipment

Protect equipment lenses, etc

WATERPROOF IP67

There is a sealing ring at the junction of the box body

Sealed waterproof ring
